

6 Program Planning & Evaluation Needs

- We need to know what knowledge, skills, and attitudes our participants should acquire as a result of our program.
- We need support developing activities and experiences that will help our program participants learn.
- We need to secure funding for our program.
- We need a process to determine if our program is effective.
- We need help collecting and analyzing data about our program.
- We need suggestions about what changes we can make based on our program evaluation.
